Academic Senate
Participatory Governance Committee Report

Technology Committee – John Czworkowski & Leila Parello

- The Technology Committee has begun discussion on four projects aimed at improving operations related to technology at the campus. Some of this work will involve coordination with the district on its own improvements:

    * System-wide Single Sign-On

    * Wireless access expansion

    * Central inventory with universal access across the campus (focused on software)

    * Centralized request process for technology requests & acquisitions (focused on software)

- The AUP Technology request cycle has begun. The Technology Committee's first meeting to discuss proposals, and the responses by units to the committee's questions, will be tomorrow, Mon 11/27/2023. The target date for the committee to score proposals is Fri 12/08/2023.
