Student Success Story

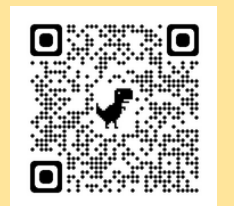

"My name is Tiffany and I'm excited to share that I've just started a new job as a Patient Care Coordinator at Serene Health. This opportunity means the world to me, especially as I continue pursuing my degree in Social Work. The road to get here wasn't easy. Not long ago, I didn't have a job, and I was homeless. It was one of the hardest times of my life, and there were moments when I wasn't sure if things would ever get better. However, I knew deep down that I wanted to help people, and I held onto that hope. I turned to the Career Services office at Grossmont College for guidance, and that was a game changer. I found this job through Handshake, but it was the consistent support and encouragement from Sonia Yaddgo, the Job Placement Specialist, and Renee Nasori, the Career Services Supervisor, that truly made the difference. Through constant check ups by Sonia and Renee offering new leads and motivation when I needed it the most gave me a new sense of confidence to earn this position. As a Patient Care Coordinator, I get to give back in a way that feels deeply personal. I'm working with people who are going through difficult times, just like I did. Being able to meet them where they are, support them, and make a positive difference in their lives is exactly why I chose Social Work in the first place. It's not just a job, it's a purpose, and it reminds me that we can all rise above our challenges. For anyone out there who's struggling or uncertain about their future, my advice is simple: don't hesitate to ask for help. The Career Services office was such an important part of my journey. No matter where you are right now, remember that things can change. Keep moving forward, use the resources available, and know that you're not alone."

-Tiffany Wrolstad
